MEMORANDUM

DATE: March 29, 2005

TO: Kenneth S. Stoller, P.E., QEP, DEE
Chief, Pesticides and Toxic Substance Branch
Division of Enforcement and Compliance Assistance
United States Environmental Protection Agency – Region 2

FROM: Anthony Innes, Director
Office of Facilities Support

SUBJECT: REMOVAL OF PCB TRANSFORMERS
CONSENT AGREEMENT, DOCKET NO. TSCA-02-2002-9112
GREYSTONE PSYCHIATRIC HOSPITAL

Pursuant to Paragraph 5 of the Consent Agreement, we are writing to inform the EPA-Region 2 that the construction project [M1350-00] to remove and transport the thirteen [13] of the PCB transformers covered by the agreement is now complete in that the transformers have been removed from Greystone Psychiatric Hospital.

We will advise you under separate cover when the PCB's are actually destroyed. We fully expect that that will occur within the ACO timeline as extended by your January 21, 2005 memorandum.

Please find the attached Uniform Hazardous Waste Manifest and consider it proof that thirteen [13] transformers were removed from Greystone Psychiatric Hospital on March 16, 2005. It lists thirteen transformers and two drums. The drums contained wash water and the protective gear worn by the handlers.

We also resubmit the Certificate of Disposal on the fourteenth transformer covered by the ACO. This transformer [serial #3PXC17573, #11 on the list of transformers in the ACO] was removed and its PCB content has been incinerated. This was accomplished under a separate project [M1313-04].

If we can provide any additional information or answer any questions, please contact Katherine Fling, Assistant Director, Office of Facilities Support, at 609-292-0397 [office] or 609-610-4494 [cell].

Thank you for your assistance.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national governmental regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

CERTIFICATE OF DISPOSAL/RECYCLING

EPS EPA ID NUMBER: WVD988770673
 CERTIFICATE NUMBER: 9021253

UNIFORM WASTE MANIFEST DOCUMENT NUMBER: 16285
 EPS BARCODE MANIFEST NUMBER: 513041

DATE ISSUED: 9/29/04

EPS INC. RECEIVED ELECTRICAL EQUIPMENT FROM:

GREYSTONE PSYCHIATRIC HOSPITAL
 #2 ELLIS ROAD (ABELL BLDG)
 MORRIS PLAINS

NJ 7950

SITE LOCATION:

The following electrical equipment or items received on the above manifest have been processed through the EPS system for recycling of the raw materials. As part of this process the equipment has been dismantled at the EPS disposal facility and the resultant electrical components including the case have been processed thru the EPS furnace to destroy all combustible material including PCB's and any traces of oil. All recovered material from this process are sent to smelters with the exception of the porcelain which is landfilled. Where applicable, electrical equipment or PCB items received were decontaminated per 40 CFR 761.79. Decontamination standards and procedures prior to processing through the EPS furnace and any porous materials generated prior to decontamination were shipped to a TSCA approved chemical land. Natural Gas Pipeline Systems have been processed in accordance to 40 CFR 761.60 (5) (ii) (A) (1&2). Where applicable, any PCB Mineral Oil Dielectric Fluid (MODEF) received or recovered from electrical equipment or items is detoxified to less than 2 ppm PCB's by the EPS PCBX Mobile PCB Detoxification System per USEPA approval under 40 CFR 761.60 (e) as an alternative method for the destruction of PCB's. The MODEF is then recycled or incinerated.

Under civil and criminal penalties of law for making of submission of false or fraudulent statements or representations, "18 U.S.C. 1001 and 15 U.S.C. 2615". I certify that the information contained in or accompanying this document is true, accurate and complete. As to the identified section(s) of this document for which I cannot personally verify truth and accuracy, I certify as the company official having supervisory responsibility for the persons who, acting under my direct instructions, made the verification that this information is true, accurate and complete.

The following is a list of equipment processed from the above manifest. Of the 1 item(s) received a total of 1 have been processed per the above conditions.
